

FLYLAL TECHNICS SELECTS RAMCO'S AVIATION M&E SOLUTION

Lawrenceville, New Jersey – August 19, 2008 – Ramco, the Global Aviation Maintenance & Engineering (M&E) and Maintenance, Repair & Overhaul (MRO) software provider, announced today that flyLAL Technics has selected its Maintenance & Engineering Solution.

Ramco's aviation software is a business process, component/web-centric off-the-shelf solution. flyLAL Technics will implement Ramco's solution covering MRO sales, engineering, technical records, configuration management, maintenance planning and execution, component maintenance, logistics and procurement. Utilizing Ramco's VirtualWorks Platform, the M&E / MRO solution will help flyLAL Technics achieve the business agility it needs serving its Customers, expanding and eliminating obstacles of technology integration.

"We selected Ramco because of its superior product founded on leading edge technology, because of its people and because of its commitment to flyLAL Technics. Ramco will help us face current and future challenges on our growth path. This project is of strategic importance for our future and we are looking forward to a successful delivery", said Andrej Belotelov flyLAL Technics' General Director

"We are very happy to provide flyLAL Technics with the applications, tools and the flexibility they need to support their unique business requirements. Ramco welcomes flyLAL Technics to its family of global esteemed customers. We look forward to flyLAL Technics utilizing Ramco's solution thus allow them to accommodate growth and adapt to market changes", said Jim Fitzgerald, Ramco's president – Global A&D, Aviation & MRO Solutions.
